The Committee considered a Resolution offered by Councilor Fred Capone: That a representative of the Mayor's office and Community Development appear at this meeting to explain the terms of the contract with Blue Bike and discuss proposed locations within the City.

Jay Monty, Transportation Planner for the Office of Planning and Development provided the Committee members with a power point presentation package on the overview and update of the BLUEbikes program but noted that he himself would be unable to attend the meeting.

The Committee noting that no quorum was present held an informal discussion on the subject matter and expressed concerns about capital and operating costs, why city government was not involved in approving contract or bike docking locations.
