North has been before the Board before in regards to this License. The Chairman says that they have been before the Board and was told that they were in talks with Wynn and trying to find a location. Attorney Riley explains that the issue is that when there is a renewal of a license if the owner has a license and it has been used then get an automatic renewal as long as the premise is now open for business and still have the same property. The License does not have the same property and should not have been renewed. The License cannot be used because they do not have access to the address of 38 Broadway. The Chairman will take a vote to revoke the license. He explains that once a location is found they will be able to apply for another one. If at that time the Board will petition that state to issue another one for them. The zoning down on lower Broadway has change and will not allow a gas station in there area.
